examples for usage

Mitred joints with the LNF 20.

Groove height adjustment via revolving depth control turret or via scale.

Available as a special accessory for the LNF 20: Pitch pocket cutter, Ref. No. 091793

The LNF 20 is supplied in the practical T-MAX.

Applications

- › Cutting slots for biscuits
- › Cutting slots for wood patches
- › Compatible materials include solid wood, board and carcass materials

Advantages

- › The on/off switch is easily and conveniently operated with your thumb – for right-handed and left-handed users.
- › With above average 750 watt (1 hp) rating – for professional continuous use.
- › Double column guide for height adjustment – ensures exact, torsion-free adjustment.

Description

Now with extra features... and all conveniently integrated in the MAFELL-MAX. Ideal for the biscuit jointing fanatics amongst you!

The tilt stop can be fixed with detents of 0°, 22.5°, 45°, and 67.5° up to 90°.

Torsion-free cast angle stop and height adjustment make your work easier while 2 sturdy adjusting bolts keep your setting constant even after your 100th cut.

All you need is "on board" in the MAFELL-MAX: practical containers for your dowels, space for the optional pitch pocket cutter, anti-slip mat and of course your LNF 20.
