360° Spray System for all angle use

## RUST FLASH

### RUST LOOSENER WITH FREEZE SHOCK

Rust Flash is based on an advanced formulation based on the laws of thermo-dynamics which rapidly freezes rust down to -40°C causing micro-fissures to form in the rust layer. The micro-fissures enables the active penetrating ingredients to get to work deep into the thread, and allows the fastener to be removed up to 10X FASTER than ordinary penetrating formulations.

Rust Flash frees metal parts seized by dirt, rust, corrosion or dried-up greasy deposits. Ensures quick disassembly of mechanical components, fittings, assemblies, nuts and bolts, and other close tolerance fasteners. It reduces maintenance costs through time saving, and also it reduces scrap rate of seized parts. Does not contain silicones.

### PRODUCT CODES / FILL SIZES

31578 / 500ml

### APPLICATIONS

- Seized and rusted nuts and bolts
- Valves
- Seized and corroded fasteners
- Air tools
- Locks & Hinges
- Chains and conveyors
- Equipment disassembly
- Agricultural equipment
- threaded components

### DIRECTIONS

- Remove as much of the loose dirt and grime from the application area as possible. We recommend one of the extensive Ambersil cleaners and degreasers range to provide the best results.
- Apply liberally, as close as possible, saturating problem areas.
- Use extension tube for hard-to-reach areas and precision application.
- Allow two minutes for penetration then reapply if necessary.

## TECHNICAL DATA (WITHOUT PROPELLANT)

Appearance	Liquid, amber
Odour	Typical
Specific gravity @ 20°C	0.75
Flash point (Tag Closed Cup)	< 0°C
Temperature drop effect	- 40°C on the surface
Horizontal spread (after 120 s, @20°C)	19cm <sup>2</sup>

## MATERIALS COMPATIBILITY

OK	Safe for all metals and for most plastics and rubbers (users should conduct their own testing for suitability prior to application use).
CAUTION	-
NOT OK	-

## STORAGE & SHELF LIFE

The product may be stored at normal ambient temperatures and has a shelf life of not less than 6 years with correct storage. Aerosols should always be stored below 50°C, away from direct heat and naked flame.

## HEALTH AND SAFETY

A separate Safety Data Sheet (SDS) according to EC Regulation 73/404/EEC and 648/2004/EC is available from Ambersil.com or via [info.uk@crcind.com](mailto:info.uk@crcind.com)
